

BharatCares Annual Report

From the CEOs Desk:

I am delighted to present the Annual Report of BharatCares, the social impact arm of CSRBOX, for the fiscal year 2020-21. This non-profit, driven by youth leadership, is dedicated to making a meaningful difference in the lives of numerous underprivileged individuals throughout India. From healthcare to rural development, women's empowerment to education, livelihood to technology and innovation, we are committed to fostering sustainable development with the goal of transforming our vision of resilient communities into tangible reality.

We remain dedicated to our ongoing efforts aimed at uplifting women and girls, alleviating poverty, supporting the most marginalized individuals, including those in both rural and urban areas, and developing deeper collaborations with government entities, non-profit organizations, and corporations.

Bhomik Shah
Founder and CEO, CSRBOX
Managing Director, BharatCares

About Bharatcares

BharatCares, a not-for-profit organization, is the social impact arm of CSRBOX. Our sustainable and holistic interventions in Education, Healthcare, Livelihood, Skill Development, WASH and Environment is benefiting underprivileged communities in over hundreds of remote villages and urban slums across 29 states of India.

We have more than 20 welfare projects that are being implemented at the grass-roots level, helping thousands of people in living a life of dignity. Our programs are based on demographic needs assessment, and are co-designed with communities to ensure equity, acceptance and sustainability of the interventions.

Bharatcares: Changing lives through Care, Empathy and Trust

Bharat-e-Shiksha

Bharat e-Shiksha aims to make quality education accessible under which a Digital Learning Centre (DLC) is set up that has the capacity to cater 20-25 students who come from marginalized communities facing socio-economic challenges with lack of provision for online education and relevant academic resources.

The student's formation is in different batches from class 6th-8th (at a few places 9th and 10th Standard also) following the COVID-19 protocols. The project has been initiated on the Policy implementation of NEP 2020, dedicated to a hybrid model of learning with mentor learning and digital connect.

**Outreach to
50+ students**

**60% students have
shown significant
progress in
Mathematics and
Science**

**Enrolled:
100 students to the
Digital Learning
Centres**

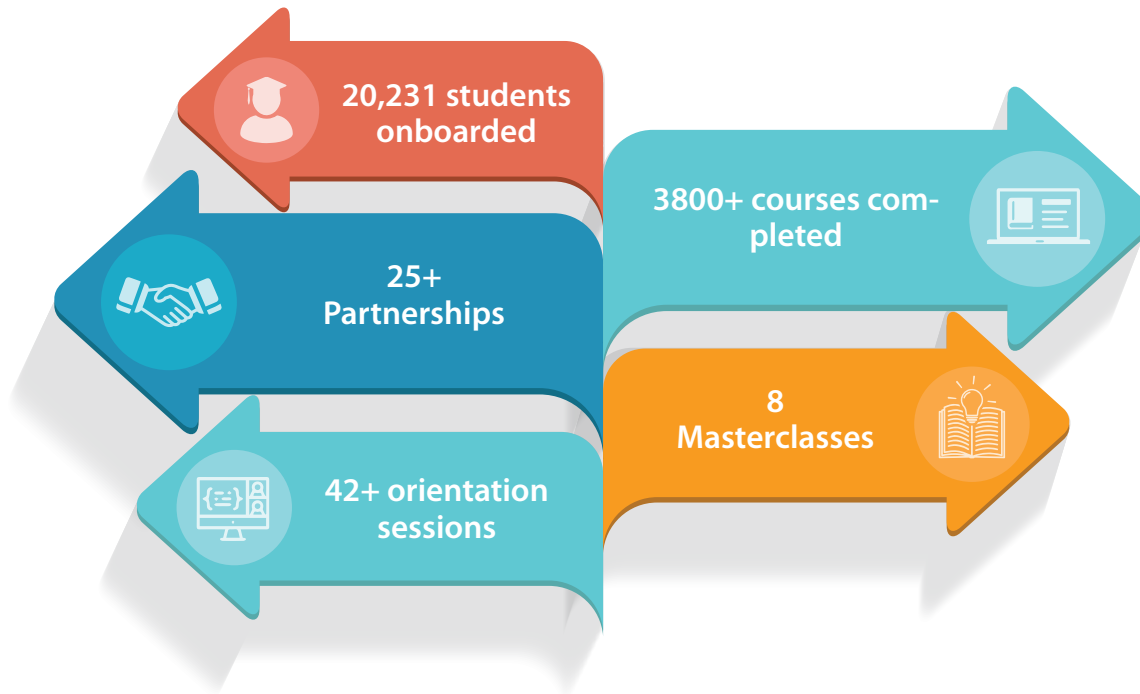

**Location :
Pune, Ahmedabad,
Nuh-Haryana**

IBM's SkillsBuild for Students & Educators

SkillsBuild for students aligns with the New Education Policy and New Digital India that equips learners above the age of 13 years and educators with foundational technology competencies & soft skills required in the 21st century. The project also caters to teachers' training and thereby builds their capacities for educating students with emerging skills.

BharatCares has collaborated with several stakeholders such as Government Schools, State Education Boards, and Civil Society Organizations working in the space of school education to implement the project.

IBM SkillsBuild for Job Seekers

SkillsBuild for job seekers focuses on skill development & livelihood of youth above the age of 18 years. The project aims at addressing the issue of unemployment by filling the skill gap and imparting industry-relevant skills to youth to make them job-ready. CSRBOX is implementing this program through a collaborative approach with government agencies such as State Skill Development Missions, State Technical Education Departments, State Universities, and Academic Institutes.

volunteers engaged

Computer & Digital Literacy Program

As per a recent National Family Health Survey, over 60 per cent of women in India's 12 states and union territories have never used the internet. To tackle this huge digital gender gap, our Computer Training and Digital Literacy Program is providing basic computer and digital literacy training to women and girls who have either dropped out of school or are currently pursuing their education.

Program modules:

Basic Computer Training

01

Understand the basics of Computer

02

Search and navigate the internet effectively

03

Identify the basic parts of computer

04

Understand and use basic computer vocabulary

05

Basics of Microsoft Office (Word, Excel, Powerpoint)

Better Anganwadi Initiative

Anganwadi Centers (AWCs) serve as the first institutional engagement of children outside their homes and prepare a strong educational foundation for them. Most of the AWCs cater to children of the lower and lower-middle-income group, who otherwise do not have access to private pre-schools or cannot afford them. We identified AWCs lacking in infrastructure and learning resources and transformed them into Smart Anganwadis.

Program Features:

**Upgradation and
Renovation of
Anganwadis**

**Established Smart
Anganwadis**

**Micro library setup
in these AWCs**

**Capacity Building
of Anganwadi
Workers**

Fight Against COVID-19 Program

Covid-19 required strategic steps to build beyond the pandemic by accelerating investments to mitigate the after impacts and improve such disaster preparedness. Recognizing the need and significance of such investments, we, along with People-to-people Health Foundation and LG Electronics came together to support the government machinery in setting up a resilient health care system in place.

Preventing A Third Wave of COVID-19

**Scaling up
Vaccination**

**Testing, Treating
and Tracking**

**Improving the
Health Care
Infrastructure**
